GIOVANNI IDO PEDUZZI

SENIOR PROJECT IT MANAGER & TECHNICAL ASSET MANAGEMENT

PERSONAL PROFILE

Il start my professional career as a technology manager, from October 2020 to join Deloitte from September '21; during this training and growth process, I focus on diversified operational consulting activities in the administrative and management fields. **The main projects I have dealt with are in the field of electronic measurement, process management, IT security and financial administrative reporting.** I have also taken part in projects related to the migration of information to and from financial and production systems. The result was for managers and staff the correct perception of both ordinary and non-ordinary activities.

AREAS OF EXPERTISE

IT manager and IT staff management. Consulting on development projects in WEB technology. Definitions of strategic choices and training on remote hosting, cloud and migrations between hybrid infrastructures. Experience DB structures, migration's and performance. Reduction of infrastructure costs and process mergers. Security information and event management.
